### GROWERS OF BURLEY TOBACCO

Meet in Lexington and Effect Temporary Organization. Unanimous Vote To Cut Out 1911 Crop.

The growers of burley tobacco met in Lexington on last Friday and effected a temporary organization under the name of "The Burley Tobacco Union." The meeting was largely attended and delegates were present from nearly all sections where burley tobacco is grown, so large was the crowd that the court house would not hold them and they were compelled to adjourn to the opera house.

The first step taken was to vote on whether or not they would cut the 1911 crop, the result showed the meeting to be almost unanimously in favor of raising no crop this year. The meeting then adopted articles of incorporation under the name of the "Burley Tobacco Union" and the following officers were elected: President, June W. Gayle, of Owen county; Vice President, James F. Middleton, of Shelby county; Secretary and Treasurer, C. F. Chenault, of Madison county. The articles of incorporation create only a temporary organization, until the growers may have time to pass upon who shall be their leaders. The burley growers are asked to meet at their respective voting precincts on Saturday preceding the first Monday in February and elect a precinct member of a county Board of Control; the members so elected will meet at their county seat on the following Monday and elect a county chairman. The county chairman so elected will be a member of the Board of Directors of the new organization.

The new board thus elected is called to meet in Lexington on March sixth, at which time the term of office of the above named officers will expire, and the new officers will be elected by representatives chosen directly by the growers. Lexington was chosen as the headquarters of the new organization.

The terms of the articles of incorporation and the by laws to be adopted leaves the control of the tobacco with the counties and the county officers, and the only authority vested in the officers or the executive committee, or that shall be so vested when the by laws are adopted, in so far as the selling of the tobacco is concerned, will be to act as the agents of the Board of Directors and to sell the tobacco at the price fixed by that board.

President Gayle appointed the following gentlemen as members of the executive committee: James F. Middleton, of Shelby; C. E. Tate, of Lincoln; A. G. Turnipseed, of Adams county, Ohio; J. Lee Briddell, of Nelson; J. M. Crain, of Fleming; Judge Scott Mays, of Washington; and A. W. Hamilton, of Montgomery.

Overtures have been made by various other tobacco organizations, looking both to an amalgamation, and with a view to working to each others mutual interest, but nothing definite has as yet been done along this line.

## Tobacco Sales

Made Last Friday.

## Shelburne's Warehouse

West Side South Broadway, Just Below Southern Depot.

Lexington, Ky., Jan. 6th, 1911.

They report the market higher and say they will make it pay the people to sell with them. Our market with a half dozen big warehouses, and half a dozen big redrying plants, and big storage houses, has more competition than any other for all grades of Burley tobacco, both new and old.

The big manufacturers and dealers prefer to buy where they have located their big plants and storage houses, and save the extra expense of prizing and repriming and shipping to Lexington to be redried and stored, so it is plain it will pay you to save this expense, and come on the Shelburne Warehouse where you get the best prices and accommodations.

We give below some sales made last Friday, which shows that Shelburne's is still in the lead for high prices.

Our sales were fully one dollar higher on common stuff and two dollars higher on all good working stock. All the good bright tobacco is selling high. Our customers were all well pleased for they could all see that we pushed the prices up to the limit on every pile by hard work on the sales and by our own bidding; they will come again, come with them, and we will do the same for you.

We want you to come and see our new addition just completed, making Shelburne's Warehouse the best lighted and the most complete sales floor in the State; 410 feet long, by 100 to 158 feet in width, about the largest in the State.

Our house unlike any other in the State is built right to show your tobacco, being shedded almost entirely to the South, with big sky lights which give a soft south light on our sales floor.

Railroads are offering us special rates on loose tobacco shipped in cars. If you ship in packages you can put in as many grades as you wish, separating them by paper. Also see that your name and address are on each package.

If you wish to hear from the market at any time, 'phone or drop us a line, and we will give you best advice. Come to see us, and hear the best Auctioneer of them all, J. B. Stallings.

## Dairying Pays In Holland

on \$500 land; why will not Dairying pay in Garrard County on \$100 land?

Dairymen in Holland get about one cent per pound more for their butter than we in America, but this advantage is offset by the fact that they import their concentrates (bran and cottonseed meal) from America.

Dairying is progressive in character. It's possibilities increase with each succeeding year.

Dairying will not wear out your land, but will enable you to pass it on to your son in better condition than when you received it.

In dairying there are no trust, no cut-outs, no pools necessary, no off years.

Dairying is the ideal road to success. Let us show you.

### ANNOUNCEMENTS

We are authorized to announce Hon. Charles A. Hardin a candidate for Judge of the Thirteenth Judicial District, at the November election, 1911, subject to the action of the Democratic party.

### Tobacco Crop Of 1911.

There is no question as to the large supply of tobacco on hand by reason of the big crops of 1909-1910, and if another full crop is raised in 1911 the supply will be yet greater and prices must be even lower than at the present time.

What is the best thing for the grower to do under the circumstances? If everybody in all the tobacco raising districts would decline to raise the 1911 crop it might be the best for all, and we are inclined to the belief that what would do the state and the country to undertake such a problem, is worthy of the serious consideration of all. Better quit tobacco growing and pursue other agricultural crops than have anarchy and bloodshed in our community and state. Another question to be considered in connection with a "cut out" is the increase in the crop in other states. Conceding that it is both possible and practical to cut out a crop in Kentucky, would not other states, the price of soaring up by reason of a cut out, increase the difficulties for growing and help keep the price down?

Another serious problem for the growers in this immediate community is the great inconvenience in now arranging to substitute some other crop for 1911 on the short notice to make the change. Individuals with small farms who have arranged and prepared to raise tobacco, and who have debts to meet would likely suffer considerable loss by reason of a cut out. We all know that the price of tobacco is practically fixed by the American Tobacco Co., and to engage in a contest with such a combination it is absolutely necessary to have a united effort. The will of the majority should control. When the question is put for determination as to whether or not we will have a cut out for 1911, the wish of the majority of the people of Garrard County should control and minority ought to abide by and acquiesce in the plan so adopted. The only possible way to settle the situation satisfactorily is to have harmony and union in the plans agreed upon.

### Leads The World.

The United States built in the year just closed 4,200 miles of railroad, leading all the countries of the world in new mileage, as it has every year for the past half century. It was stated several years ago by some one that the days of great railroad-building in this country were over and that South Africa, Australia and Canada would be the chief fields in this industry. This has been proven a mistake and still the world sees our country leading and its wealth and industry are still drawing people to all parts of our country. When you see railroads being built, you may rest assured that the country and people are progressive for the railroads do more for the country than any other industry and wherever there is a good one you see signs of prosperity. Our mileage now is nearly half that of all the world and exceeds that of all Europe by more than 50,000 miles and in the last ten years we have built more miles than any other country possess. Therefore let us encourage this industry for it makes our property more valuable and makes a greater country in every respect.

### Cut Out Personalities.

We do not doubt that the result of the primary will be the nomination of Senator James B. McCreary for governor, no matter how many candidates go to the post. The more the merrier and the less the cost per capita, in expenses. At present Mr. Johnson is making the most noise and it has been proclaimed that he has been selected by the other candidates to alone try conclusions with the ex-Senator, but it seems that it is not true. It is to be regretted that Mr. Johnson is pitching the canvass on such a low plane. He evidently thinks that he can destroy Senator McCreary by the course he has adopted towards him; but if he is wise he will "cut it out." Instead let him run on his own merits. The trumped up demerits of his opponent is neither injuring Mc-

Creary nor benefiting Johnson.

Let personalities be excluded and principles, not men, discussed. Senator McCreary's record will bear the light of the noon day sun. He isn't too old not to make again the model governor of Kentucky and unless Mr. Johnson can offer great deal better reasons for his defeat than he has done he will be the Democratic nominee for governor by an overwhelming majority. —Lexington Herald.

### Hubert Vreeland Leaves Courier Journal.

Mr. Hubert Vreeland has resigned his position as managing editor of the Courier Journal to accept a more lucrative position. Mr. Vreeland was an able writer and all round newspaper man as he has proven by his rapid rise with the Courier Journal. He is popular alike with both press and public and their well wishes will follow him wherever he may go. Mr. Harrison Robertson will succeed Mr. Vreeland with the additional duties of general manager. Mr. Robertson is not unknown to the readers of the Courier Journal, having been in charge of the editorial columns of that paper for a number of years.

Adams county Ohio now has a prominent place in the limelight because of indictment and conviction of over one thousand of her citizens for vote selling. It seems that the votes of the citizens of that county were its principal commodity, and that the practice had been continued for years, so long in fact that it was becoming so looked upon as a matter of course and as one old citizen expressed it, "they told there wasn't no harm in it." The prostituting of the right of suffrage, even in one man, is a heinous crime, but when it seizes hold upon an entire county, it becomes a menace, which should be dealt with as summarily as it has been by the fearless officers of that county.

Atlee Pomerene Lieut. Governor-elect of Canton Stark county Ohio on Friday nominated by the democratic caucus at Columbus to be United States Senator to succeed Charles W. Dick the present senator, who is a republican, as the Ohio legislature is democratic the nomination was virtually an election. It seems that while President Taft has been eating possum and hobnobbing with the southern people the fences surrounding his own preserve have become sadly in need of repair and the state of Ohio has gradually drifted from the hands of the G. O. P. into the roster of democratic states.

There is a rumor afloat that Hon. J. C. Blackburn, who since his return from the Canal Zone has been living in his farm in Woodford county, will be a candidate for the U. S. Senate to succeed Senator Panter. No one has as yet been able to get an expression from the "Sage of Woodford" on the subject, and it being assumed that he has the matter under consideration.

Governor Willson on Wednesday appointed ex-Mayor Robert Worth Blinn to be Judge of the first division of the Chancery court of Jefferson county to succeed Judge Shackelford after resignation. In making the appointment, Governor Willson took occasion to speak in a very complimentary manner of Mr. Blinn, both as a man and an officer.

Ex United States Senator James B. McCreary and Congressman Ben Johnson, candidates for the nomination for Governor spoke in Shelbyville on Monday. Senator McCreary denied the charge that he was a bolter which Congressman Johnson has preferred against him. He also asserted that Mr. Johnson was equally as persistent as he in seeking for office.

Senat or Beverage of Indiana is actively endeavoring to oust William Lorimer as Senator from Illinois, alleging that the seat was secured by bribery and fraud. Senator Owen of Oklahoma is also seeking to have the seat of the gentleman from Illinois declared vacant.

Argument for the proposed dissolution of the so called "tobacco trust" is now in progress before the Supreme Court of the United States in Washington. After this case is finished the argument for the dissolution of the Standard Oil Co. will be taken up.

With the leaving of W. I. Williams on Monday for Tulsa Oklahoma, where he will reside in future, the community sustains the loss of one of her best citizens, the Bar one of its leading members and the Church one of her most faithful workers.

The Carnegie Trust Co. of New York closed its doors Saturday by order of the State Superintendent of Banks. The institution had deposits aggregating \$10,000,000. Andrew Carnegie had no connection with the defunct bank.

Judge Henry S. Barker, of Louisville, on last Friday formally assumed his duties as President of Kentucky University at Lexington and was tendered a banquet at the Phoenix hotel by the citizens of Lexington.

Sir John Aird, builder of the famous Assuan dam across the Nile, is dead at seventy-eight. His fame is almost as secure as that of the builder of the pyramids, with the advantage that his was far the more useful work.

Messrs. W. F. Pittman and Francis Douglas of Boyle county have announced their candidacy for the nomination for the legislature from Boyle

County, subject to the action of the democratic party.

A little girl whose finger was bitten off by a bear to which she was feeding peanuts, and who said, "Don't blame the nice bear; it was all my fault," is an angel that beats the story-books.

During 1910, the fishermen of Maine caught 19,936,542 lobsters. They couldn't have caught many more but we bet they could have caught a few "bigger" ones here in Lancaster.

1428 citizens of Adams county, Ohio, up-to-date have confessed to selling their votes. There are 240 indictments yet pending.

Three legislatures now in session; Missouri, Arkansas and Texas, have measures before them seeking to regulate the liquor traffic.

### GOOD NEWS

Every Sufferer From Catarrh, Coughs, Colds and Sore Throat Should Read It.

So many hundreds of catarrh victims who have taken the HYOMEI treatment, have written us letters thanking us for publishing our method of taking the HYOMEI vapor treatment in connection with the inhaler that we gladly publish it again.

The vapor treatment is especially recommended in stubborn cases of chronic catarrh of long standing, but remember that the inhaler should be used daily as usual.

This is the simple vapor treatment and only takes five minutes of your time before going to bed. Pour a teaspoonful of HYOMEI into a bowl of boiling water, cover head and bowl with towel and breathe for several minutes the vapor that rises.

You will be surprised at the result of this treatment; it makes the head feel fine and clear; you will sleep better, and that stuffed up feeling in the head will gradually disappear.

This same method will break up the worst cold in the head or chest in one night.

A bottle of HYOMEI costs 50 cents at R. E. McRoberts & Son, who guarantee it. If you want the complete outfit, which includes the little hand rubber pocket inhaler, the price is \$1.00.

No stomach dosing; just breathe HYOMEI and cure catarrh and all diseases of the breathing organs. 1m
